

National Collegiate 4-H Advocacy Team

A committee of the Collegiate 4-H National Action Board

Advocacy Team agenda
June 11th, 2006
Sunday at 10pm eastern time

- NAB Liaison
 - NAB has asked us to pick a representative to attend meetings and keep them updated on the happenings within NAB. Traditionally this role has been the responsibility of the NAB secretary, but as we have added a great deal more work to that position this year, they are looking for a “chair” to represent what we are working on.

- Pamphlet information
 - I have put together a Collegiate 4-H pamphlet (similar to the one designed by last year’s team) to send out to 4-H clubs across the country. I would like to have the team look at it and make suggestions and maybe help me out with some contact information for their local clubs. I will be approaching NAB about this project at their next meeting and asking for funding for printing and postage.

- News for the website
 - The web team has asked me to talk to you about getting news articles from the clubs across the national. They plan to post them on the homepage of collegiate4h.org and they need to update that page every two weeks. I would like to try and cover the entire country with this and have a different article from each region every two weeks. I realize that this is an impressive feat, especially since last year’s team had trouble getting info for one newsletter out at nationals. If you have any suggestions or comments please let me know.

- Promotion of the website and message boards
 - The web team would also like our help in promoting the web site in all of the regions as well as getting people to register for the new message board that is up on the website. The message board is designed to keep people connected with national news as well as having areas for each region and each club, but the only way it will work is if we get the word out.
